

GUERNSEY FINANCE INDUSTRY UPDATE

ST JAMES • 24.01.18 • 3-5PM

We would be delighted if you could join us at our annual industry update to hear about the exciting progress Guernsey Finance has made during 2017 and more detail on our plans for 2018 across our target markets internationally.

As the promotional agency for the island's finance industry, our update will provide a valuable insight into the workings of Guernsey's financial services sector and how it markets and positions itself on a global scale. For those of you considering a career in the finance sector locally, the event should act as a useful starting point for your future endeavours.

In addition to talking about Guernsey Finance's activities, the event will also include a keynote speech from Miles Celic, Chief Executive of TheCityUK - the representative body which champions the UK-based financial and related professional services industry, on his organisation's plans for a post-Brexit future.

KEYNOTE SPEAKER
MILES CELIC
