Three Student Placement / Internships

September 2020 – July 2021

The Guernsey Sports Commission is looking for expressions of interest for three placements/ internships from students studying, or who have graduated from, a sport science or teaching related degree, as part of its work in primary schools, performance sport and our wider sporting community.

The placements would come with a maintenance grant of £10k, with free accommodation for the placement in Alderney. All the placements would be for one academic year with the opportunity to gain additional earning opportunities at weekends and in the holidays.

During the placement the student(s) would be supporting Sports Commission staff and teachers with the delivery of fundamental movement skills, school sport and community based sport programmes. In addition to this there is the opportunity for students to spend a proportion of their time on areas of personal interest or research projects. Through the 2019/20 academic year our students have been developing performance analysis solutions for Guernsey FC* and Guernsey Raiders overseen by qualified sport scientists. Students would also gain access to mentoring, continual professional development opportunities and formal qualifications through the Guernsey Sports Commission and its member sports. There would also be the scope for interested students to undertake project work given the relevant stakeholders being satisfied.

Minimum requirements at commencement of the role would include a minimum UKCC2 or equivalent coaching qualification in a sport, a driving licence, DBS check and an in date safeguarding qualification. The Guernsey Sports Commission will be able to provide support to individuals if required in acquiring these qualifications.

For further information please contact Jeremy Frith. Anyone interested should also send their CV's and a covering letter to Jeremy Frith by email or post.

*Further detail below.

Closing date Friday 24th January 2020.

GUERNSEY FOOTBALL CLUB LBG

REGISTERED OFFICE:

Western Suite, Ground Floor, Mill Court, La Charroterie, St Peter Port, Guernsey, GY1 1EJ

PATRON: SIR GEOFFREY ROWLAND

CHAIRMAN: MARK LE TISSIER

Guernsey FC is currently playing at Step 4 in the FA National Pyramid System. The football club is unique in many ways and enjoys a large following. Through professional connections, Guernsey FC has developed a trusted affiliation with Bristol City of the EFL Championship, which allows the coaching staff to integrate regularly sharing learning experiences and/or resources

Available Role

- **Review match footage and provide analysis of Guernsey FC games to include:**
 - **Collating match data to include the player statistical KPI's**
 - **Creating analysis clips for coaches and playing squad to review**
 - **Ad hoc reporting and data capture as identified by coaching staff**
- **Analysing and reporting on GPS match performance data**
- **Provide live match analytical support to the coaches at all Home games**
- **Travel with the squad to away games as and when required and provide analytical match support to the coaching staff.**

The analysis software we use is considered to be the best in the business and is actually the same software used on Sky Sports and at most top professional clubs. This will undoubtedly provide the student with some exceptional experience and background knowledge that they could take further with them in the future.

** A PC (preferably Laptop) will be required for the match analysis software.*
