

Strategy and Technical Graduate

Introduction

A fantastic Graduate position has become available at Guernsey Finance to work in our Strategy and Technical team.

The team, led by Dr Andy Sloan, Guernsey's leading economist, focuses on all areas of the finance industry, developing and communicating an understanding of all aspects of Guernsey's various specialist finance sectors, and coordinating, documenting and implementing the island's strategy for the future of our finance industry.

This role lies at the heart of building Guernsey's future economy and involves working across several agencies on market analysis, product development, and regulatory and government policy. Work will focus on a range of strategic topics including fintech, green and sustainable finance, and

Skills and Qualifications

The ideal candidate would have an interest in the Guernsey finance industry, be committed to the island and have a strong sense of the community.

They will have a good degree in a numerate discipline, preferably economics, business or finance related, though other numerate degrees will be considered.

Excellent organisational, oral and written communication skills are essential, a lively interest and an enquiring mind, and a high degree of self-confidence.

Good technical and IT skills and familiarity with internet research and social media techniques would also be helpful.

Further training and development will be provided on the job

The role.

This is a varied role which will entail a range of duties including:

Providing general support for the strategic and technical team.

Undertaking research projects into markets and economies, financial business topics, international policy, and our own local industry and services.

Drafting technical and strategic papers and delivering briefing presentations to people at all levels.
